Problem solution

This problem solving section is important and it covers almost every problem our customers may have encountered over the years, so please take some time to check it out

If you have any questions or need any help with this product, please contact us first.

Question 1 no signal or can find the wifi name.

Solution:

Cause A: The camera is not turned on or the battery is dead. Press the power button The front of the camera to turn on the camera. The blue power indicator will light up under the following conditions

Camera turned on successfully. The number of power lights lit represents Current battery level. Please check that the power light is on. If it's not on, the battery is on When the battery runs out, please charge the camera (connect the camera with a USB cable and use the 5V power supply as you would charge your phone). How do I check if the camera is turned on successfully?

Cover the camera's light sensor with your hand or cover the entire camera to check that the infrared light is on and glowing red. If yes, the camera is working properly.

Reason B: After your inspection, the infrared led light can be turned on, and the camera can also be turned on, if the screen still only shows "no signal", please put the monitor close to the camera to check whether the signal is weak, causing the display to lose connection. If so, please check that you have installed the antenna securely or contact us and we will send you the antenna along with the extension cord.

Cause C: After switching the channel mode, the camera needs to be restarted (shut down and then turned on), and the camera and the display can be paired to work. (For specific pairing operations,

Please refer to the section on Pairing of M buttons.)

Question 2 The camera is hot when working.

Solution: When the car is driving, the camera should work continuously, the state of high-speed data processing, so it will emit a lot of heat.

The camera is equipped with temperature protection. The operating temperature is -20C-70C. When the temperature reaches a critical value, it will automatically shut down. It will turn on when the temperature drops to the set temperature.

If you have any questions about the camera, please contact us first rather than returning it Direct, we will not hesitate to do the best for you.

Problem 3 The signal is really bad.

Solution: Before sending each unit's signal to ours, we test it over long distances

Attention:

Whenever you need any help or have any questions or run into some problems

Products, please feel free to contact us. we'll do our best.

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. such modifications could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement.

To maintain compliance with FCC's RF exposure guidelines, the distance must be at least 20 cm between the radiator and your body, and fully supported by the operating and installation configurations of the transmitter and its antenna(s).

English/Northern Ireland:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation

WARNING

To avoid danger of suffocation, keep this plastic bag away from babies and children. Do not use this bag in cribs, beds, carriages or playpens. This bag is not a toy.

DE/BE:

Dieses Gerät entspricht Teil 15 der FCC-Regeln. Der Betrieb unterliegt den folgenden zwei Bedingungen:

- (1) Dieses Gerät darf keine schädlichen Störungen verursachen, und
- (2) dieses Gerät muss empfangene Störungen akzeptieren, einschließlich Störungen, die einen unerwünschten Betrieb verursachen können.

WARNUNG

Um Erstickungsgefahr zu vermeiden, halten Sie diese Plastiktüte von Babys und Kindern fern. Verwenden Sie diese Tüte nicht in Kinderbetten, Betten, Kinderwagen oder Laufställen. Diese Tüte ist kein Spielzeug.

ES:

Este dispositivo cumple con la parte 15 de las reglas de la FCC. El funcionamiento está sujeto a las siguientes dos condiciones:

- (1) Este dispositivo no puede causar interferencias perjudiciales, y
- (2) este dispositivo debe aceptar cualquier interferencia recibida, incluyendo interferencias que puedan causar un funcionamiento no deseado.

ADVERTENCIA

Para evitar el peligro de asfixia, mantenga esta bolsa de plástico fuera del alcance de bebés y niños. No use esta bolsa en cunas, camas, coches de bebé o parques infantiles. Esta bolsa no es un juguete.

FR/BE:

Cet appareil est conforme à la partie 15 des règles de la FCC. Son fonctionnement est soumis aux deux conditions suivantes : (1) Cet appareil ne doit pas causer d'interférences nuisibles, et (2) cet appareil doit accepter toute interférence reçue, y compris les interférences pouvant provoquer un fonctionnement indésirable.

AVERTISSEMENT Pour éviter tout risque de suffocation, gardez ce sac en plastique hors de portée des bébés et des enfants. Ne pas utiliser ce sac dans des berceaux, des lits, des landaus ou des parcs. Ce sac n'est pas un jouet.

IT:

Questo dispositivo è conforme alla parte 15 delle norme FCC. Il funzionamento è soggetto alle seguenti due condizioni:

- (1) Questo dispositivo non deve causare interferenze dannose, e
- (2) Questo dispositivo deve accettare qualsiasi interferenza ricevuta, incluse interferenze che possono causare un funzionamento indesiderato.

AVVERTENZA

Per evitare il pericolo di soffocamento, tenere questa busta di plastica lontana dai neonati e dai bambini. Non utilizzare questa busta in culle, letti, carrozzine o box. Questa busta non è un giocattolo.

NL/BE:

Dit apparaat voldoet aan deel 15 van de FCC-regels. Het gebruik is onderworpen aan de volgende twee voorwaarden: (1) Dit apparaat mag geen schadelijke interferentie veroorzaken, en (2) dit apparaat moet ontvangen interferentie accepteren, inclusief interferentie die ongewenste werking kan veroorzaken.

WAARSCHUWING Om verstikkingsgevaar te vermijden, houd deze plastic zak uit de buurt van baby's en kinderen. Gebruik deze zak niet in wiegen, bedden, kindervagens of boxen. Deze zak is geen speelgoed.

PL:

To urządzenie jest zgodne z częścią 15 przepisów FCC. Działanie podlega następującym warunkom:

- (1) To urządzenie nie może powodować szkodliwych zakłóceń oraz (2) to urządzenie musi akceptować wszelkie odbierane zakłócenia, w tym zakłócenia mogące powodować niepożądane działanie.
